EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>

Regular updates will be posted as they are available.

**Subject:** Gold mine update?

Shaun,

I am doing the story for Reuters today on gold mine spill. I saw the data posted on the website today about contaminants in the spill, but it needs to be interpreted. Do you plan a conference call with media today or can you call me?

Thanks,

Kevin Murphy
